Bill Hirsch's MIRACLE-Heavy Duty Marine/Industrial Cleaner and Degreaser is one of the finest products on the market for cleaning non absorbent surfaces. It will clean steel, aluminum, brass, bronze and chrome. It is also very effective in cleaning bathroom fixtures, tile and fibreglass. It will not harm paint if rinsed off per directions. It is an unmatched cleaner for cleaning engines, machinery, undercarriages, etc.

DILUTIONS:

For heavy duty cleaning – auto engines, bilges, machinery, use 1 part MIRACLE-Cleaner to 1-2 parts warm water.

For cleaning out gummy fuel tanks – mix 1 quart MIRACLE-Cleaner with 1 quart hot water.

For lighter duty cleaning – fibreglass, tile, water line scum, fuel leaks, engines, machinery, galley, stainless steel, tarps, fishing gear, rubber, nylon, vinyl, use 1 part MIRACLE-Cleaner to 3-4 parts warm water.

For general cleaning, it can be mixed with up to 10 parts of warm water.

DIRECTIONS:

Spray or dip part or area to be cleaned with MIRACLE-Cleaner/Degreaser until thoroughly wetted. For best results MIRACLE-Cleaner/Degreaser should be warm to the touch. It is best to dilute it with warm water. Allow to penetrate for 3-5 minutes and hot water rinse off or wipe down. Do not let this product dry on the work surface or staining may occur. Keep surface wet at all times. To prevent re-rusting after cleaning with MIRACLE-Cleaner/Degreaser, use Bill Hirsch MIRACLE-Rust Inhibitor.

TO CLEAN GUMMY FUEL TANKS: Cover all holes first with masking or duct tape. Pour in a mixture of 1 quart of cleaner and 1 quart of warm water. Position tank in such a way that mixture will work on the affected area and let set there for 24 hours. Agitate tank occasionally, empty tank. If tank is still gummy, repeat process. Most tanks generally require 2-3 treatments. Keep from freezing.

WARNING: Bill Hirsch MIRACLE-Heavy Duty Marine/Industrial Cleaner & Degreaser is an alkaline type product. Wear hand and eye protection when using this product. If skin or eye contact occurs, thoroughly rinse the area immediately with clean water. If a stinging or burning sensation persists, see a physician. If ingested, drink milk or milk of magnesia. Do not induce vomiting. Call a physician. Keep out of reach of children and pets.

NOTE: This product is non hazardous and does not require Coast Guard certification for use in a ship's store on board vessels, since its characteristics do not represent sufficient hazard to be considered a dangerous article under 46-PFA-147.
